

Bio

Hannah Neo is passionate about supporting people through their obstacles to achieve their potential. She finds it deeply humbling to be invited to embark on this journey with fellow sojourners and to bear witness to their breakthroughs through the time spent together. The hope of new discoveries and beginnings is what keeps her going even when times are tough because she knows that the way out is just around the corner.

Whenever she finds pockets of time, Hannah can be found gathering with friends over a nice meal or at home making another new dress to wear.
