

Bio

Holding fast to the tagline, 'one life, live it', Tony Ong likes to live it to the fullest in the most meaningful way so that many people around him will be touched and renewed to be a blessing to others and he believes that his work at CCC offers him opportunities to do just that.

He also enjoys tending to his plants, allowing himself to be moved and ministered to by music, immersing himself in movies of different genres, doing lap at the pool and simply doing nothing at times.
