Post Graduate Certificate in Clinical
and Casework Supervision

PGC-CCWS

12 January 2027 to 27 April 2027

The course will be funded under the non-preapproved PCG route for SSAs.

Introduction

The main objective of this course to enable Social Service Practitioners (SSPs) to integrate professional thinking and theoretical knowledge in casework and/or clinical supervision, with its skills-based application in diverse work settings. It aims to equip SSPs to guide and support their supervisees in working with clients/families more effectively.

Learning Outcomes

In relation to participants' clinical and/or casework and supervisory practice, this course enables participants to:

1. Appreciate and apply the assumptions of Systems Thinking
2. Develop increased reflexivity
3. Be cognizant of the influencing factors of the person of the SSPs
4. Understand and apply Interventive Interviewing
5. Appreciate and use the Domains of Action especially in working with involuntary clients and/or clients in at-risk situations

In relation to participants' supervisory practice, this course enables participants to:

1. Appreciate and apply the Seven-Eyed Supervision Model and Integrative Developmental Model
2. Build awareness of and potentially utilise parallel processes and isomorphism across clinical and/or casework supervisory contexts
3. Experience Supervision of Supervision (SOS) using videotape presentations during group coaching.
