FINDING BEAUTY IN THE BROKEN:  
THE ART OF RESTORATIVE GRACE

For over a decade, **Awful Grace** has pioneered a restorative path in Singapore, moving away from “fixing” individuals and towards honouring their stories. Guided by the Japanese philosophy of Wabi-sabi, we believe that imperfection and the scars of a difficult past are not flaws to be hidden, but the very seams that make a life resilient and valuable.

At this conference, we invite you to witness the physical manifestation of this journey. On display are unique pottery pieces handcrafted by incarcerated persons within Singapore’s prisons. Each vessel serves as a metaphor for the human spirit: fractured, repaired, and ultimately made more beautiful through the patient, organic process of reintegration.

What you will experience:

- **The Art of Kintsugi:** See how fractured narratives are transformed into sources of strength.
- **Person-Centred Impact:** Beyond statistics, feel the depth of change expressed through clay and craft.
- **A New Perspective:** Join us in building a compassionate society where the past does not define the future, and where every “broken” beginning is an opportunity for a masterpiece.
